Technical Analysis

**Elomatic – TUAS  
cooperation  
in autumn 2016**

# Elomatic – TUAS

**ESCflow is food waste monitoring system which promotes environmental thinking and green values.**

- Target is to reduce food waste and ease the impact of food production on environment.
- ESCflow helps companies and their customers to save money and nature.

Elomatic had a need for further development of our ESCflow product.

Can we work together with TUAS with this product?
